

How to open and close each section

How to close

- ① To close turn the cap to the right until it “clicks” at least twice.
- ② After verifying that the sliding door is closed, push the lid to lock.

Warning

- Please close the cap securely. If fuel leaks out while driving it may cause a fire.

Advice

- When closing the refuelling port lid, please ensure the slide door is closed.

Fuel supply

- Fuel capacity is about 76 litres.

Engine type	Fuel
VQ35DE	Premium unleaded (High octane) gasoline
VQ25DE	Regular unleaded gasoline

Advice

- Do not use unspecified fuel.
- VQ35DE engine, please use premium unleaded gasoline.

If premium unleaded is not available you can use regular unleaded but it may cause symptoms such as reduced engine output.
